### PREFACE

History notes that, the colonial regime of the West is undergoing in times of rising Islamic Civilization. The West wanted to make weak Islamic World, so started to the Crusades in 1095. The Western world tries to place the perception, that the Crusades have ended in 1200 years. The Crusades have changed shape but definitely not ended. When it comes to nowadays, the Crusades are continuing through pacts formed by institutionalization. There is no room for Islamic countries in these pacts. Many countries are second-class members in all the pacts, including the United Nations. President of the Republic of Turkey says “World is bigger than the UN's five strong members ” is mainly emphasizing this.

### The Crusades

Imperialist countries killed millions of people for colonial system's continuation in Palestine, Afghanistan, Iraq, Libya, Syria, Egypt. When the terror, civil war, economic blockade and illegal organizations like a Feto; is not works as a success, then the coup choice is to move in those countries. Recently the coup is maken in Venezuela, and judgment coup in Pakistan. Along with the coup attempt, there is a defamation campaign in international arena, as;

1. Country leader is accused of dictatorship
2. The claim that the leader is related to terrorist organizations
3. It is alleged that the dictator established a special guardian army

Also in Turkey, they made the same scenarios, lots of. Coups, economic crisis, judgment coup. After post-modern coup, February 28th, most people in Turkey wanted to change those unfair and tedious events and things (being in 10 years). AK Party government changed those situations. This achievement made by the most people in Turkey. Bu halk 15 Temmuz'da iş başa düştü diyerek meydanlara kanı ve canı pahasına da inerek vatanına sahip çıkmıştır. Against to tanks, rifles, guns, bombing helicopter and bombing fighter jets millions of people are out in the squares and streets.

Crusader alliance being shocked to people are out in the streets. Because in the Arab Spring, like a Tunis, Libya, Syria, Egypt, this alliance got success to people whom were in the squares. Crusader Alliance continue their dirty aims in those arabic countries. It was also clear that the people who were trying to get away from the squares with the events of Gezi Park in Turkey would not be in the game. On the 15th of July, masses who did not leave their homes in the events of the Gezi Park challenged the death of the guns and shocked the crusade alliance descending into the squares.

The Parallel State Structure is going to be released after 2013 with the greatest loss that can be given to Turkey by the beginning of the years of liquidation in 2016. Military Impact, Economic Crisis, Judicial Impulse, did not hesitate to attempt.

On the road to July 15, 2016, the crusade alliance was launched by SADAT Inc.. and its founder, began publishing scandalous news about retired General Adnan Tanrıverdi, which continued until July 15, 2016, after the shock of the July 15 coup attempt failed. Probably if the coup was successful, the crimes committed by the coupans would be demolished on SADAT Inc. and the real criminals would be laundered.

With the preparation of the indictments of the July 15 lawsuits and the trial phase of proceedings being passed, the defamation campaigns of the SADAT Inc. have also gained momentum with the start of the theatrical game in which the defendants, who were taken in court, played three monkeys.

SADAT Inc., as the first and only company in the Islamic world, it has embraced the western companies and of course the countries themselves. For this reason, from the first day it was founded, it was exposed to slander and slander campaigns. It is understandable that the western countries see SADAT Inc. as an important competitor and that they become vigilant, but in some actors in our country they work in parallel with the external outbreaks so that all parts of the scene are fully occupied.

In this book, we want to inform to public, in order to see true face of the scandal campaign about our company.

Those who can not find the slightest mistake in the activities carried out by SADAT Inc. to date carry out a scandal campaign with the 'is claimed' scarcely showing evidence of many unrelated topics. Offering evidence is not possible because everything that is said against our company is a lie. So much so that this treacherous network is trying to throw the crimes it committed on July 15th on SADAT Inc.

Therefore, the book consists of three main titles;

1. Lies of July of 15th
2. Lies about SADAT
3. Facts about SADAT

## **JULY 15 LIES**

On July 15, the terrorists who started playing three monkey theaters saying "I did not see, hear, do not know" before the judiciary on the failure of the coup attempt hopes to get rid of the judiciary by spreading lies about July 15th. Many charges were made against SADAT with various lies and slanders in order to conceal blood infiltrated into the hands of July 15th and at the same time strike two birds with one stone.

But all the accusations that are alleged are devoid of the least deluded and only slanderous... Now let's look at the lies about July 15th...

As you see that pictures taken in a day. Whereas coup attempt was in the night. Although, passing time over 1 year from July 15th, you can see that tarnish is still on the same point. We wonder that they forgot sniper at there !!!

There is a photo, which is taken from a tv channel news, claiming the scandal campaign,. At that time, clearly it is night...

How is it that in the picture that is taken at night and claimed to belong to the sniper, the bridge is as bright as daylight.

The fact is coming up one year later at July 26th, 2017 news from Hürriyet;

*During the July 15 coup attempt of FETO, the 1052th-page indictment about the 143 suspected soldiers arrested in connection with the incidents in which 34 people, two of police officers, were martyred on 15 July at the Martyrs' Bridge was accepted by the Istanbul 25th High Criminal Court. In the prepared indictment, the last point was put on the allegations that the sniper was on the bridge. It is stated that the object alleged to be a sniper is actually a crane that is covered with canvas over the tower.*

However, those who carry out the lie campaign do not hesitate to spread any kind of suitable for their own interests. They don't know the border to morality.

The aim is; the deaths of 34 police officers who are killed by heavy machine guns and infantry rifles on tanks over bridges and worst thing is to create a ground for the steps to be taken against Turkey by creating a perception in the West.

Also, they are claiming that there were snipers and lies of SADAT's personnel killed people in Atatürk Airport, TBMM and Kazan. They are making perception operation for exonerate putschists and calumniate the TURKEY in the international arena.

In a year; coup attempt lawsuits, which are completed, suspects got punishment like these; in Bitlis, 4; in Kars, 3; Sivas, 2; in Erzurum, 2; in Istanbul, 1 person.

The prisoners who had been ruled by the prisoner were punished in various proportions as well as life imprisonment.

### **First court order from Erzurum**

For a "Coup attempt", first court order came from Erzurum. The Erzurum 2nd High Criminal Court, which sees the case filed against a colonel and a major, sentenced the defendants to life imprisonment for "attempted to remove the constitutional order. "

One of the defendants who helped the soldiers who occupied the Istanbul Governorship, was tried in the case of 24 suspected defendants, the court decided that sentenced imprisoned officer Yusuf Yıldız would be sentenced to life imprisonment for "attempted to remove the constitutional order. "

The court ruled the acquittal of 23 suspects who served on the scene of the incident.

For the coup attempt, 714 arrested and 3737 suspected are still on investigation in 26 province. Investigations have caught the decision about 48 suspects.

After the completion of such investigations, the charges against the suspects will be sent to the courts for prosecution.

### **Combination Case**

During the coup attempt, about the actions of the Chief of General Staff, about the 221 defendants, including the members of the so-called "Civil Peace Council", 56 defendants defended for the first time in one month's stallings.

The High Military Shura's old member Akın Öztürk, who claimed to be the number one of the first defenders in the most critical case of FETO's attempted coup, was on the military side.

The defendants, who denied the charges against them, also denied the indictments. While most of the defendants expressed their complaints in the defense of the defendants, they refrained from commenting on the questioned Fetullah Gulen, the number one suspect, FETO ringleader.

Despite clear evidence such as camera recordings, telephone interview records, coup plan seized on them, orders and assignment documents, the defenses in the court inquiries "I did not see, hear, do not know" were transformed into a theater game in which they played three monkeys.

### Lie of Autopsy and Ballistic Review Not Made

It is also a great lie that the July 15 martyrs and veterans have not been autopsied and the bullets that are ejected are not subjected to ballistic examinations. 7 Criminal investigations were carried out.

For example, in the case of Mugla 2nd Heavy Penal Court, the accused former Special Forces member İsmail Yiğit claimed that they did not shoot Nedip Cengiz Eker, but the prosecutor of the case Ali Cenk Düzgün responded by saying, "What more do you want, what kind of evidence do you want? There is a biological residue belonging to the defendant Şükrü Seymen of the gun who killed Mehmet Çetin There is a ballistic report that the bullet core that killed Nedip Cengiz Eker came from one of the weapons obtained from the defendants. What do you do with the gossip? expressions. 8

The Forensic Medicine Report, which entered the file on the July 15 Martyrs' Bridge Indictment, reveals bitter truths. 9

The news of the Hürriyet newspaper dated August 5, 2017 contains the following information;

*Forensic Medicine reports of 34 people murdered by soldiers on the Bosphorus Bridge in the name of the former attempt at coup d'etat on July 15 revealed painful painting details. Forensic and ballistic examination reports of the Istanbul Chief Public Prosecutor's Office in the July 15 Martyrs Bridge indictments were produced for use in the HK33, MG3 and G3 weapons and according to Law No. 6136, 34 guns were shot with flares in the form of 'forbidden'. According to these reports, the advertiser Erol Olçok and his son Abdullah Tayyip Olçok too was shot in the back. It was found that Olçok lost his inner life after he had a bullet in the back right shoulder and his son Abdullah entered the back left shoulder. It was determined that those who resisted the darbs lost their lives because of internal and external bleeding and brain damage with the bullets that hit their bodies.*

In the indictment, it was determined that 83 of the suspects used guns during the events according to their declarations, hand swap analyzes and camera recordings. It was seen that almost all of the suspects testified that they had fired into the air. Some of the suspects took orders and confessed their crimes, saying that they shot him. The attorney general has conducted extensive studies and analyzes to determine the killings of the martyrs. On the bridge krokisi the places where the martyrs and the killers were located were pointed out. The comparison of the types of weapons of the soldiers with the bullets detected in the autopsy reports and the examination made according to the arrival angle enabled the martyrs to be identified by

grouping the coup deers killed. According to this, Erol Olçok and Abdullah Tayyip Olçok were among the 27 martyrs who were killed by 60 coup plotters. The martyr who killed the martyr Timur Akdemir was reportedly killed by 26 soldiers and six soldiers were killed by 75 soldiers. Lieutenant-Colonel Turgay Ödemiş and Major Ahmet Taştan, who gave instructions to the massacre, were also involved as tyrant and killer in the three groups. <sup>10</sup>

Two of the police officers, including advertiser Erol Olçok and his son Abdullah Tayyip Olçok, were among the civilians, including 32 civilians, who were shot and shot by the defendant soldiers with pistols and long barreled guns on the citizens who reacted and intervened to the coup attempt and four times from one of the tanks a total of 34 martyrs were killed in the. <sup>11</sup>

### There Were Empty Hives

In order to destroy the evil, it was determined that the terrorists of July 15th gathered the wastes of marble and dropped them down the bridge and dropped the hives to Beylerbeyi Palace Garden. <sup>12</sup>

According to Milliyet's newspaper report dated August 14, 2017;

*At the Beylerbeyi Palace, during the attempt of the coup d'etat on 15 July, the empty hives that the FETO s on the Bosphorus Bridge threw down from the bridge to darken the evidence were found. It was discovered that 29 empty hulls examined in the Criminal Laboratories were taken from 12 separate G3s embezzled into the brigade's troops. Advertiser Erol Olçok's son Abdullah Tayyip Olçok was among the 14 martyrs and 20 of the ghazis from the body of the gun bullets were also waiting for comparison with the empty hives found. The results will give names to names on the bridge.*

### Weapons Were Identified

These hives were ballistically examined at the Istanbul Criminal Police Laboratory. At the end of the investigation Beylerbeyi Palace huts found on the Bosphorus Bridge, fire from 12 different weapons were detected. It was determined that 9 guns were fired from different guns in the investigation. The serial numbers of the weapons were also determined by making the criminal pairings. However, it was not included in the indictment of the identity of the serial number of the weapon to whom it was embezzled. It is estimated that the information will then be entered into the court file.

### Is the Democracy in Turkey in danger?

Another lie campaign in International arena is that; the democracy in Turkey is in danger.

By saying this; they are doing perception operation with scandal campaigns. They don't want to be strong democracy in Turkey.

About results of Referendum for New Constitution, April 16th 2017; again they are making speculation. With New Constitution, term of coalition governments ended in Turkey. Because coalition governments make economic and political crisis.

How can democracy harm Turkey if it will not be driven by instability through coalition governments from now on! The Turkish people have also ended the prime minister-presidency controversy apart from the April 16 Constitution Referendum. There is no prime ministry called 'Çankaya Noteri' no more. People will elect their President by directly.

### Is Turkey Going to Under The Dictatorship?

Another lie campaign in international arena is that; Turkey is going to under the dictatorship by Mr. Erdogan.

These claimers says that 'Mr. Erdogan will change political regime to dictatorship and will be a khalif '.

The main reason underlying this accusation is that Mr. Erdogan can not do what he wants, can not make words and dentures, that the interests in Turkey have gone out, that the fountains that fill the pocket of the interests circles have been cut off.

There are some big projects as 3th Bosphorus Bridge, Bosphorus Tube Way, Gulf Bridge, Third Airport and Channel Istanbul in Turkey in order to become most whealty and developed country in the World. Benzeri projeleri bırakın bir arada herhangi bir ülkenin yürütmesini her birini yürütecek farklı ülkeler bile bulunmamaktadır.

It will be impossible to prevent the growth of a region of Turkey that will bring both Northern Iraq and Mosul-Kirkuk to its territory. The most guaranteed way to cut off the oil spouting region in Turkey is to remove it from Turkmen control. That is exactly what ISID is doing.. <sup>22</sup>

### **Is SADAT In Paramilitarism Formation?**

In the press, slander of that; 'SADAT Inc. is in paramilitary formation.' mentioned.

Actually;

SADAT Inc. is not related any armed and unarmed groups. And doesn't have any weapons. SADAT Inc. doesn't have army. It is not a special military company. It is not a special security company. SADAT doesn't serve security and defense. SADAT Inc., there is no connection with any group whether terrorist or not. In particular, it puts a distance between marginal groups.

According to press saying, there is no connection with Ottoman Organisations, TUGVA, Social Foundation, Humanitarian Aid Foundation - IHH, IBDA-C İslami Büyük Doğu Akıncıları Cephesi, KKT – Kardeş Kal Türkiye, HOH –People's Special Movement, IMKAN-Der – Humanitarian Defense and Brotherhood Association etc. It is a lie that; they provide services such as training to their members.

There is no need for any other form of Turkish Armed Forces to protect Turkey's independence and territorial integrity. Traitors (uniformed terrorists) leaked into Turkish Armed Forces, extracted. Sleeping cells are also becoming more and more like iodine over time. SADAT Inc. argued that the idea of forming armed groups outside the Turkish Armed Forces must be removed in any case.

We believe that; terrorist organizations that leak into the Turkish Armed Forces will leach into civilian armed groups much more easily, any such formation that it will cause unpredictable harm to the country.

According to the Turkish Commercial Law, our company, which operates under the status of Joint Stock Company, produces projects like all commercial companies, offers technical and financial offers to its customers and participates in fairs. All of these activities are carried out with its equity capital, behind without anyone and without the use of credit, funds, government support, even more important, despite all the obstacles of structures such as FETO and Ergenekon; and from its established 2012 until this time for 5 years found the strength of endurance.

It is a commercial formation that is able to cope with many difficulties such as the number of target customers is limited only by the number of countries declared in the logo, the difficulty of doing business with the armed forces, reaching the approval stage after encountering many bureaucratic obstacles and waiting for the next period's budget after approval.. The difficulties we may have with understanding the difficulties that we see in the start-up of the fastest-running project are three years and the average is over four years.

Despite all the financial negativities that he has faced for five years, he has not turned to similar ways of generating commercial gains in order not to create speculations and not be exposed to new lynching campaigns, even though there are no legal obstacles to opening a military pentathlon, power training, physical training course and polygon.

“ SADAT A. S is a commercial company, it has own vision, mission, ethical values. All the other claims are far from rumors and accusations.

### **SADAT sees Enemy of Turkey; That ISID - DAES as A Terrorist**

SADAT Inc., sees enemy of Turkey that ISID - DAES as a terrorist organization. It is obvious that this terrorist organisation is a subcontracting organization used to establish an independent state separate from Syria, Iraq and Turkey, in the East-South of Turkey and in the north of Syria and Iraq. The West has been using terrorist organizations against our territory for a long time. Terrorist organizations will not come after; as an ASALA then PKK, El Qaide, Kesnizani Tariqi, ISID / DAES, FETO / PDY etc.

### **SADAT Sees FETO/PDY as A Terrorist**

SADAT sees the organization of the FETO / PDY, as a terrorist organization made by centers of non-national powers by creating parallel structures within the institutions of the state, using religious, national, social, and commercial values. The best example of this is; that the Kesnizani Tariqi, which was previously housed in the Iraqi Armed Forces, during the Gulf War, handed over the country to the USA.

One such analogy was planned to take place in NATO - US guided FETO organization in Turkey. Shake version of ringleader Kithmir Fetulah Gulen admitted in the statement to members of the terrorist organization dated August 20, 2016, "It is not too dangerous for the Crusader to occupy your country, " admitting that the crusaders'. " They will not go to your home. "He also admitted that his intention was to enter as far as the most intimate points of the crusader mind. Because they did it in Iraq. According to numbers of 2013, in the hands of the crusaders which was liberating Iraq!;

- ! Number of prisoner Iraqi women: 5130
- ! Number of those who have been disgraced: 3330
- ! Number of pregnant women who are pregnant and who have given birth in prison:1200
- ! Number of forced abortions killed: 1830
- ! The number of casualties caused by mass rape: 180
- ! Number of victims killed under torture: 120

According to estimates by the Iraqi Woman Freedom Organization, after the US intervention in 2003, thousands of young women and girls in Iraq were kidnapped to other countries for prostitution. According to the prediction, between 2003 and 2010, 4 thousand young women and girls in the country disappeared. Currently estimated to be employed for prostitution, one in five of these people is missing and is under 18 years of age. <sup>24</sup>

Another similar organization has made Pakistani jurisdiction over the past few months. The Minhacul Qur'an, under the control of the fraudulent Tahir-ul Kadri, who carried out the jurisdiction of the judiciary, used religious themes such as FETO. <sup>25</sup>

“ SADAT Inc. is declaring that such outsourced organizations in Muslim countries are NATO-US-centered and crusaded organized organizations and therefore should be included in terrorist organizations.

### Pentagon Officer Michael Rubin Why Enemy to SADAT

As the extension of the crusaded mind in the Islamic countries has been declared as terrorist organizations and strategic and military advisory services have been given to friendly and allied countries, SADAT Inc. has been producing strategies for the restructuring of countries' strategies and defense elements according to this essence. the goal of the crusader forces.

SADAT Inc. with its mission and vision (even if it has not carried out any activities and has been able to carry out any service), is a fearful dream of the crusader mind.

As a Pentagon officer, Rubin, and after 15th of July, he started to learn Turkish so that he could start to speak Turkish. The Pentagon's biggest problem with NATO is the emergence of its territory at the intersection of three continents.

Initiatives such as the July 15 coup attempt in Turkey, the judicial strike in Pakistan and the Qatar crisis are due to Erdogan, who heads up the crusader hegemony, are Pentagon projects.

The Pentagon officer, Rubin, is publishing many articles about the region. In the last year, Rubin as the spokesman of the Pentagon, has produced many slander against the future of Turkey, Erdogan, SADAT, Senior Advisor Adnan TANRIVERDİ, who has survived the crucifixion of the Crusaders and has returned to maddening.

“ In this context, it is inevitable for the Pentagon to target SADAT Inc., which produces important projects in order for the region to become more and more interlocked with Defense Cooperation and Defense Industry. As SADAT's vision is vital and progresses toward fulfilling its mission, the Pentagon's chances of moving are shrinking and the chances of success declining.

### Conclusion

#### **SADAT Inc. Disarranged Global Order**

SADAT AS not ideology, but realistic projects, which are feasible, and which are based on their feet. It has trained human resources with superior features. Such a human resource is not a resource that can be obtained in a short time by consuming material resources. SADAT Inc. it has a pool of human resources which is a very important capital in its possession.

When SADAT Inc. 's mission-vision and unique human resource capital come together, the fear of the crusader mind becomes a nightmare every day.

“ “ If the AK Party leader who came to power in 2002 and where Erdogan has taken Turkey's place in 15 years and where Turkey's rules of game rules in the region are to be determined, the fact that SADAT AS will puncture the world order and settle the interests of the crusaders, we can say that it is read correctly by the forces.

#### **Scribbling With Unsubstantiated Claims**

The team that constitutes the human resource of SADAT is composed of highly qualified, qualified and highly qualified people retired from Turkish Armed Forces. The West is using its qualified staff to tackle dirty work in Africa, the Middle East, South America and even their own countries. Equipped in all aspects; national, spiritual and human values of human resources with SADAT as an obstacle to their realization of their own objectives is possible to see?

SADAT is a Consulting and Training company that is established in accordance with international legislation and the laws of the Republic of Turkey, as well as those who have no secret activity with high moral and ethical values, and who are not afraid of their vision.

The consulting and training services which the lawyers have tried to carry out without any education facilities or camps have been carried out at the premises of the Orders of the countries demanding the service (Friends and Allied of the Republic of Turkey).

In spite of all these facts, US - FETO - PDY terrorist organization, which has been in jail on July 15, has been planned by NATO through terrorist elements placed in the state for many years by the terrorist head Fetullah Gulen, with only nude hands against the heaviest weapons of this nations' does not believe in the ability to overturn the coup plot and is an organized work under it?
